Measuring effectiveness

All labour providers were audited twice in the financial year 2020/21. All of these audits in the second half of the year were conducted by telephone. These audits included worker interviews.

We encourage our employees, customers and suppliers to report any concerns related to ethical issues within our business. A monthly report is published on the status of any complaints received through the whistleblowing line. All complaints were responded to although it was noted that the no complaints were received in the previous 12 months.

All sites host regular employee representative 'How we do business' forums, throughout the year, giving workers a voice. A separate agenda item on Modern Slavery awareness has been added.

All raw material suppliers were subject to a desktop ethical risk assessment audit conducted by a member of the Agronomy team. A total of 134 audits were conducted in the year.

Plans for the next year:

- Post Covid -19 restrictions we will introduce third party on farm audits to all growers who are rated 'amber' following the Branston Ethical Risk Assessment
- Stronger together refresher training to be rolled out to Operations and Technical Management teams at all sites
- We will continue to screen our potato supply chain through our risk assessment process
- We will monitor supply chains using the new Sedex Radar tool
